

## **Combustion Turbines Work Group Meeting Teleconference - December 10, 1997**

### **Decisions**

- A MACT Floor Task Group teleconference was scheduled for Wednesday, December 17, 1997, from 1-3 pm EST.
- A Model Plant Task Group teleconference was tentatively scheduled for Tuesday, December 16, 1997, from 1-3 pm EST.
- Consensus was reached that no changes will be made to the list of pollutants suggested for testing as a result of the emissions data presented by API.

### **Next Meeting**

- The next Combustion Turbine Work Group Meeting will be a teleconference on January 28, 1998. The call-in number is (919) 541-4486.
- Items to be discussed during the next meeting may include:
  - Results of Model Plant Task Group discussion with Economic Analysis Work Group
  - MACT floor development status
  - Discuss the preliminary testing plan
  - Discuss progress made on other items since the December meeting

### **Action Items**

- Sims Roy will invite the Economic Analysis Work Group to the next Model Plant Task Group teleconference.
- Sims Roy will compile and forward the Work Group's questions concerning the Economic Analysis Work Group's data request to the Economic Analysis Work Group.
- Greg Adams, Sam Allen, and Gordon Brown will compile comments and concerns to submit to API regarding their emission factors.
- Greg Adams will send his final comments regarding the majority opinion on the landfill gas/dioxin issue to EPA by COB Monday, December 12, 1997.
- Diane McConkey will check on whether data obtained during the gas turbine testing will be automatically provided to states. She will also check on the possibility of concealing facility names and locations if copies of emission tests are requested.
- WG members will review the two page memo with guidance regarding minimum detection limits drafted by the TMPWG and send comments to Sims Roy by January 9, 1998.
- John Preczewski will review with the RICE WG their methodology for determining the detection limits defined in their test plan.
